

SUMMARY

Versatile Full-Stack Engineer specializing in the MERN Stack ecosystem and hybrid Mobile Application architectures. Proven success dropping application frame-lag and loading times while managing secure backend automation pipelines.

TECHNICAL SKILLS

Mobile Engines

- Flutter & Dart
- React Native & JS

Full-Stack Web

- React.js & Next.js
- Node.js & Express.js
- NestJS Framework

Data & DevOps

- MongoDB & Postgres
- Docker Containers
- WebSockets & Rest APIs

EDUCATION

BS in Artificial Intelligence

Mehran University | 2023 — 2027 (Expected)

Coursework: Machine Learning, Advanced Data Structures, Relational Databases (RDBMS).

PROFESSIONAL EXPERIENCE

Full-Stack Web & Mobile App Developer

Callex LLC | Remote

2024 — Present

- Architected end-to-end full-stack web solutions using the **MERN Stack and Next.js**, securing a **35% application load speed increase** across active system layouts.
- Engineered performant mobile app builds across **Flutter and React Native**, locking constant hardware-accelerated **60fps canvas rendering** profiles.
- Optimized database layers with postgres indexes and structured schemas, decreasing search response time timelines by **25%**.
- Standardized real-time server modules via custom **WebSocket (Socket.io)** pipelines, accelerating processing traffic ingestion by dropping latency **40%**.

MERN Stack & Flutter Technical Trainer

DOTCOM Institute of IT | Hyderabad

2023 — 2025

- Delivered full-stack development coaching programs, successfully training and launching over **40+ engineers** into scalable code production pipelines.
